

2027 11th International Conference on Intelligent Traffic and Transportation

September 1-3, 2027

Paris, France

About the Conference

www.icitt.org

In 2016 the ICITT conference was given the title International (ICITT) to reflect the current trends in Intelligent Traffic and Transportation engineering and technology and to promote the exchange of research, engineering, and technology application experiences internationally. It also serves to foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in intelligent traffic and transportation and related techniques.

Following the successful ICITTs in past 9 years in Zurich in 2017, Stockholm in 2018, Amsterdam in 2019, virtual mode in 2020 and 2021, Paris in 2022, Madrid in 2023, Florence in 2024, Amsterdam in 2025 and Oslo in 2026, the conference will be held in **Paris, France** during **September 1-3, 2027**. Welcome scholars and researchers working in the field of intelligent traffic and transportation from all over the world to attend the conference and share your experiences and lessons with other enthusiasts, and develop opportunities for cooperation.
